

EurBee 11 – 11th European Conference of Apidology

Bologna, 7-10 September 2026

website: <https://www.eurbee2026.com>

Bologna, 2 July 2026

Subject: EurBee 11 – Registration deadline for accepted contributions approaching

Dear Colleague,

this message is a friendly reminder that **presenting authors of contributions to EurBee 11 are required to complete their registration by 5 July 2026.**

Registration includes payment of the conference fee via the Conference website or directly through this link: <https://www.tecnichenuove.com/en/evento?id=23022>. When registering, please enter the presenting author's name correctly, to allow for faster identification.

As EurBee 11 approaches and the scientific programme must be finalised shortly, the Local Organising Committee has decided that **no extensions can be granted** for this deadline.

Please note that registration and payment by the deadline will be considered confirmation of the submitted contribution. Failure to register by the deadline will be considered as the presenting author's intention to withdraw the contribution from the Conference programme.

EurBee 11 has so far received a large number of registrations, and we hope to include all submitted contributions in the final programme. However, should you wish to withdraw your submission, we kindly ask you to inform us at eurbee2026@edagricole.it.

We look forward to welcoming you in Bologna from 7 to 10 September 2026.

With kindest regards,

Antonio Nanetti

President of EurBee 11

On behalf of the Local Organising Committee
